- Coverage for spouse and children available through separate certificate or rider¹

- Coverage may be continued if you leave employment; refer to your certificate for details

DID YOU KNOW ?

Reasons for purchasing life coverage include: replace income, final expenses, wealth transfer, and mortgage payoff.²

Common financial concerns among Americans include: the ability to afford long-term care, medical and disability expenses, retirement, investments, living debt/expenses and final expenses.²

IMPORTANT: *If you waive coverage during this initial opportunity, but decide to apply at a later date, you will be required to complete medical/lifestyle questions and could be declined based on your current health status or history.

Using your cash benefits

Cash benefits provide you with options, because you or your beneficiary get to decide how to use them.

Finances

Cash benefits can help protect your HSAs, savings, retirement plans and 401ks from being depleted

Home

Your beneficiary can use the cash benefits to help pay the mortgage, continue rental payments, or perform needed home repairs

Expenses

The cash benefit can be used to help pay for medical and living expenses such as bills, electricity and gas

**With proper planning, the death benefit can pass to your beneficiaries free from state or federal estate taxes. Please consult with your tax advisor for specific information.

You may be required to answer health questions at enrollment. Coverage may be available with reduced underwriting through your employer during your initial enrollment period. If you enroll after your initial enrollment period, answers to health questions are required.

Prepare for the future today

One way you can determine if you and your family need the coverage is to review the list below and check some or all that apply to you and your family.

- You're the primary wage earner in your family
- Your family would have trouble living comfortably without your income
- You have regular debts, like mortgage, car payment or credit cards
- You have children under 18
- You want permanent, fully guaranteed coverage
- You'd like to offer a tax-free death benefit to your beneficiary**

Here's how Whole Life works

Premiums are payable to age 95 and are conveniently payroll deducted. The longer the policy coverage continues and premiums are paid, the more the cash value builds.

Cash values and payments

As premiums are paid, the policy is building cash value over time. Premiums are guaranteed at issue and the coverage becomes fully paid-up at age 95 if all premiums have been paid.

If the decision is made to stop paying premiums after the coverage is effective and has developed cash value, the policy coverage can be surrendered for its net cash value or some coverage can continue as paid-up under either the Reduced Paid-Up (RPU) or Extended Term Insurance (ETI) non-forfeiture options.

- **RPU** - reduces the amount of the death benefit, but provides the same duration of coverage (whole life)
- **ETI** - reduces the duration of coverage (now a shorter term instead of whole life), but provides the same amount of death benefit. ETI is the default non-forfeiture option when premium payments stop and there is no active selection made to continue coverage

Benefits

Whole Life Insurance provides either:

- Death Benefit - pays a lump-sum cash benefit when the insured dies; or
